

# Horizontal Spiral Accumulator

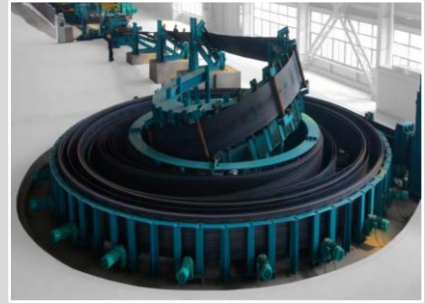

## China's industrial pioneer and leadership

Tabletop Accumulator  
for tube sizes of  $< \phi 76\text{mm}$

Horizontal Roller Accumulator  
for tube sizes of  $\phi 76 - \phi 114\text{mm}$

Horizontal Spiral Accumulator  
for tube sizes of  $> \phi 165\text{mm}$

## Our Advantages

We invented it and perfect it from hundreds of applications

- Sophisticated design with mechanic kinematic and dynamic theories to ensure no jamming, folding, deformation, or scratch during the whole process even for ultra thin and ultra wide strips
- Heavy-duty design and mechanically rugged structure to withstand heavy load consistently
- Rollers with high-grade material and surface treatment for longer service
- Automatic unmanned operation, equipped with the features of empty and full storage detection, alarming, and remote monitoring

## Technical Data Sheet

Model No.	Width of Strip (mm)	Thickness of Strip (mm)	Storage Capacity (m)	Fill-in Speed (m/min)
WLHT32	40-100	0.6-1.6	400-1200	Max.300
WLHT50	60-160	0.6-2.0	400-1200	Max.300
WLHT76	100-240	1.0-4.0	400-1000	Max.300
WLHT89	110-280	1.5-5.0	400-900	Max.180
WLHT114	120-360	1.5-6.0	400-900	Max.180
WLHT165	160-520	2.0-7.0	400-800	Max.160
WLHT219	240-700	3.0-8.0	350-800	Max.120
WLHT273	320-900	3.0-10.0	300-800	Max.120
WLHT325	400-1100	5.0-12.7	300-800	Max.120
WLHT406	600-1300	6.0-14.0	300-800	Max.120
WLHT508	700-1650	6.0-16.0	300-800	Max.100
WLHT630	900-2000	6.0-20.0	300-800	Max.100
WLHT660	900-2200	6.0-23.0	300-800	Max.100
WLHT711	900-2400	8.0-25.0	300-800	Max.100
